Q & A

Design Listing Nomenclature

AAA/BBB-CCC-DD

AAA = Manufacturer identifier by initials

BBB = System type derived from CSI Code

CCC = Rating duration in minutes

DD = Sequence number for multiple design listings of the same manufacturer, system type, and rating duration.

Example design listing **ABC/BPF 120-01**:

Represents a listing for the fictional “A Basic Company’s” Building Perimeter Firestop system (referenced with CSI code 07 84 53 Building Perimeter Firestopping) with a rating period of 120 minutes and it represents the first listing for this rating period under this manufacturer and CSI Category.
